- Oracle APEX (Foundation)

Languages

English,Malayalam,Tamil

Profile Summary

Highly motivated and detail-oriented Python Django Full Stack Web Developer with hands-on experience in building dynamic and responsive web applications. Proficient in front-end technologies like HTML, CSS, JavaScript, and Bootstrap, as well as back-end frameworks Django. Adept at collaborating with cross-functional teams to deliver high quality software solutions. Eager to leverage my technical skills and passion for web development to contribute to innovative projects.

Work Experience

DOCUMENT CONTROLLER

March 2025 to till date

DENHOLM YAM STEEL FACTORY, ICAD II ABUDHABI

Contractor: TECHNICAS REUNIDAS

Project: INEOS ONE

Client: INEOS

Location: Abu Dhabi, UAE

- Monitored document versions, revisions, and approval cycles to ensure up-to-date records were available on-site and online.
- Supported engineering, procurement, and construction teams with document retrieval and status tracking. Supervision of NDT activities (RT, PT, MT, PAUT, PWHT, HT).
- Archived completed project documents as per retention policies and handed over records to the client as part of project close-out.

PYTHON FULLSTACK TRAINER

July 2024 – January 2025

LUMINAR TECHNO LAB

Location: Kerala, INDIA

- Delivered hands-on training in **Python programming**, including core concepts, OOPs, file handling, and exception handling.
- Taught **full stack web development** using **Django, HTML, CSS, JavaScript, Bootstrap**, and **MySQL**.
- Designed and guided real-time mini projects and CRUD-based web applications to help students build strong portfolios.
- Explained REST APIs and integrated them with front-end and back-end components using Django REST Framework (DRF).
- Provided personalized mentoring to students for debugging, logical thinking, and clean code practices.
- Created and updated training materials, coding exercises, and practical assignments aligned with industry standards.
- Taught version control using **Git** and helped students deploy projects using **PythonAnywhere**, or local servers.
- Monitored student progress and provided feedback to improve their technical and communication skills.
- Encouraged teamwork, problem-solving, and project collaboration to simulate IT work environments.

PYTHON FULLSTACK DEVELOPER INTERN

September 2023 to April 2024

LUMINAR TECHNO LAB

Location: Kerala, INDIA.

- Developed and maintained web applications using **Python (Django/Flask)** for backend and **HTML, CSS, Bootstrap, JavaScript** for frontend.
- Created dynamic and responsive user interfaces using **modern UI frameworks** and ensured cross-browser compatibility.
- Designed RESTful APIs and integrated third-party services and databases (e.g., MySQL, SQLite).
- Participated in version control and team collaboration using **Git/GitHub**.
- Contributed to database modeling, query optimization, and data validation processes.
- Collaborated with senior developers in debugging and improving application performance and security.
- Documented technical processes, API usage, and application workflows for project handover.

Projects

TOUR PACKAGE BOOKING

- Developed fully functional Tour booking website using Python Django framework.
- Implemented interactive admin panel for efficient management.
- Created user-friendly interface with robust search functionality.
- Implemented secure and authentication.
- Utilized MySQL for efficient database management.

RECIPE MANAGEMENT USING API

- Developed comprehensive **Recipe management** web application using **REST API** architecture.
- Implemented **CRUD** operations for managing recipe details, providing full flexibility in data manipulation.
- Designed **REST API** endpoints for seamless communication between frontend and backend systems.
- Created functionalities to store and manage recipe details including name, category, and recipe details.

E-Commerce Website

- Developed a fully functional **e-commerce website** for mobile phones and laptops using **Python Django**.
- Implemented an interactive **admin panel** for efficient product and order management.
- Created a user-friendly interface with advanced **search and filtering** options.
- Ensured secure **authentication** and **payment gateway** integration.
- Utilized **MySQL** for efficient database management.
- Designed the website with a **responsive** layout and engaging UI/UX for better user interaction.

Academic Qualification

- **Diploma in Computer Engineering**
Technical Education of Kerala
- **Higher Secondary**
Govt Vocational HigherSecondary School
- **S.S.L.C**
Ganapathivilasam High School

Personal Information

Date of Birth	:	26-08-2002
Nationality	:	Indian
Marital Status	:	Single

Professional Qualification

- **NACTET (Python fullstack development)**
- **Diploma in computer engineering**
- **AI Prompt Engineering Basics in Coursera**
- **Oracle APEX : Foundations in Coursera**
